To a board-ready PMO; three stood up

WHAT I DO

Stand up PMO and governance functions from zero. Restore delivery discipline on slipping programs. Turn ambiguous transformation mandates into structured, measurable execution across waterfall, agile, and hybrid delivery models, increasingly with AI in the delivery path.

SELECTED OUTCOMES

- **\$35M** dual-municipal capital program delivered on time and within budget for Region of Peel; both projects returned to baseline after supply chain disruption with zero scope loss.
- **8 hours to 1.5** per-deal handling after an AI-assisted intake redesign: 93% match to human assessment, +70% application completion, applicants routed by lending profile.
- **3 client PMOs** stood up in 4 to 8 weeks each with 15+ governance artifacts and board-ready visibility from week one; 6 engagements, \$25M+ scope, 33% expansion rate.
- **25x growth** scaling a PropTech platform from 0 to 30+ staff with full P&L; 77% CAC reduction; zero transaction loss through the initial COVID-19 crisis.
- **\$250M+** in regulated transaction volume across a full program lifecycle; President's Club five consecutive years.
